

K-LOVE FM radio serves our local area in a way that no other station does. It's the only station of it's kind (that I am aware of) in the USA. If K-Love goes off the air it will leave a void that no other station can fill. I never have to worry about the kids hearing negative or off color humor and remarks. I believe that K-Love's broadcasts are in the public interest and in the interest of public decency. Thank you for the chance to comment.
